Boston, June 30.

Friday last his Excellency the Governor sent the following Message to the Hon. House of Representatives, viz

Gentlemen of the House of Representatives,

AS your Reasons for not complying at present with what has been recommended to you by Order of the King, with the Advice of his Parliament on the Behalf of the Sufferers in the late Disturbances, will probably be canvassed with great Precision; it will be proper that the Intendment of them should be as certain as may be. I should therefore be glad to know, whether I must understand from your Message of Yesterday, that it is your Opinion that a Detection of the Perpetrators of the late Mischiefs is necessary to intitle the Sufferers to a Compensation for their Losses.

It appears to be the gracious Intention of the King and Parliament, that a Veil should be cast over the late Disturbances, provided it be covered by a general and uniform dutiful Behaviour for the future. But it is certainly no less their firm and resolute Purpose, that the Sufferers by these Disturbances shall have a full and ample Indemnification made to them: And this Business has been committed to you upon Principles of Humanity and Justice, rather than of mere Generosity.

If you think that an Inquiry into the Promotion and Perpetration of the late Disorders is a necessary Preliminary to determine from whence the Charge of the Compensation shall finally come, and shall pronounce for the Expediency of such an Enquiry, you will certainly be assisted by the Governor and Council in the Prosecution of it: And I dare say it will be no difficult Work to trace this Matter to the Bottom.

But in the mean Time I fear the King and Parliament will think their Intimations disregarded, by your proposing an Enquiry now, after it has been neglected for nine Months past; during all which Time the House have had this very Business of Indemnification under their Consideration. They expect from you that the Sufferers shall be indemnified at all Events, whether the Offenders are discovered or not, or whether they are able to pay the Damages or not; and seem to be more intent upon Indemnification than upon Punishment.

I therefore wish, for the Sake of the Province, whose Interests, and especially those of its Trade, are now in a very nice Balance, and for the Sake of this Town, whose respectable Inhabitants have already suffered much, in the Opinion of the World, for having been tame Spectators of the Violences committed in it, that you would remove this Disgrace without the least Delay, by ordering the Indemnification immediately to be made, upon the Credit of those whom you shall hereafter judge to be chargeable with it. When this is done, there can be no Objection to your postponing the Consideration, on whom this Money ought ultimately to be laid, to what Time you please: and there is no Doubt but that any Enquiry, which you shall think fit to make for this Purpose, will be as efficacious a you can desire.

Province House, *June* 27, 1766. Fra. Bernard.

Upon which the House the next Day presented to His Excellency the following Address.

May it please your Excellency,

THE House have duly attended to your Excellency's Message of the 27th Instant——We are fully sensible of the Goodness of the King and Parliament, and agree with your Excellency, that it appears to be their gracious Intention that a Veil should be drawn over the late Disturbances. And we hope our Behaviour will always be such, as to merit their Approbation.

SIR, The House are ever attentive to the Applications of Persons of every Rank, whose Case justly claims their Consideration: But as the Sufferers whom we apprehend your Excellency refers to, have never applied to this House, (as we conceive) in a parliamentary Way for Relief; we are, humbly of Opinion, that we have done all at present, that our most Gracious Sovereign and his Parliament can reasonably expect from us——But to shew our Regard to every Thing recommended by the King and Parliament, we have appointed a Committee to sit in the Recess of the Court, to make a thoro' Enquiry into the Riots committed in the Month of August last, and discover the Persons concerned therein as far as may be. For the effectuating which Business, we doubt not, but we shall be aided by your Excellency, and his Majesty's Council.

And further we would acquaint your Excellency, that the House have passed a Resolve to take the Report of this Committee under Consideration at the beginning of the next Session of this Court and act thereon what shall appear to them to be just and reasonable.

Your Excellency is pleased to enforce the immediate Compliance of the House with this Requisition, by an Argument drawn from a Regard to the Town of Boston the Reputation of whose Inhabitants your Excellency says has already suffered much for having been tame Spectators of the Violences committed, and that this Disgrace would be removed thereby. We see no Reason why the Reputation of that Town should suffer in the Opinion of any one from all the Evidence that has fallen under the observation of the House; nor does it appear to us how a Compliance would remove such Disgrace, if that Town had been so unhappy as to have fallen under it.

Oliver Hutchinson &c

By the Brig Cornelia Capt Hervey who arrived at New York last Saturday Night, in 6 Weeks from Falmouth, we have the following Advices, viz.

LONDON, May 3

IT is thought the late commotions in Spain will be attended with considerable advantage to Great-Britain. That affair manifestly proves that the Bourbon Family Compact is by no means agreable to the sense and inclinations of the native Spaniards; that they disapprove of such a close connection with France, and consequently we as well as other nations, may look upon that Compact in a less formidable Light. It shews, that the native Spaniards have an antipathy to the French nation, their modes and fashions; and also that they have an affection for the English, and desire to live in friendship with them. As it demonstrates, that the people of Spain do not like to be led by the nose by France, and to be drawn by her into a quarrel with England, so it may very likely tend to prolong the peace. His Catholic Majesty's army of native Spaniards refusing to fire upon their fellow subjects, afford a very instructive Lesson to all ambitious and arbitrary princes, as it shews them, that their native soldiery will not be concerned in carrying on violent measures, and destroying the rights, liberties and lives of their fellow subjects; and the walloon guards firing upon the Spaniards, is a striking proof, which the people of every country should take especial notice of, how dangerous it is to suffer their princes to keep foreign troops in the nation. It likewise affords a very useful lesson to all ministers and favourites, as it shews them, that no favour of their prince can be sufficient to protect them against the Resentment of an injured and enraged people.

We hear that at a General Meeting of the Proprietors of Canada Bills, and others interested in the Honor of this Nation, &c. on Monday last, it was resolved, that a Letter of Thanks should be sent by a Committee to his Excellency General Conway, for his spirited and successful Negociation with the Court of France for the final Payment of the Canada Bills, and on Wednesday a Number of Gentlemen, deputed for that Purpose, waited on his Excellency with a Letter of Thanks accordingly.

We hear a scheme is under consideration to grant the Hon. East India company a bounty on the importation of low-priced teas; which, it is tho't will be an effectual means to suppress the smuggling this commodity into the kingdom from France and Holland.

The Manilla ransom we are told is to be insisted upon immediately, and our Ministers, 'tis said are determined to put up with no further procrastinations.

It is said for the greater security of our African Settlements, it is intended to vest the Property of the whole in the Crown, from the Streights of Gibraltar to the most Southern Extremities possessed by the English on that Continent.

They write from Gibraltar, that a Body of Troops were on their March to Malaga, where they were to be embarked for Vera Cruz in America.

May 9. We hear the Right Hon. Mr. Secretary Conway will soon be complimented with the Freedom of the City of London in a Gold Box.

Letters from Madrid of the 8th ult. inform, that the Spanish Governor had ordered 6 Regiments of Foot and two of Horse to be embarked with the utmost expedition, for America, having lately received an account of Insurrections, not only in Mexico, but also in the City of Quito, in Peru.

It is assured, that a great Orator has outdone his former Out doings, by his very spirited and resistless Eloquence lately in Opposition to General Warrants.

The Right Hon. Mr. Pitt is gone to Bath.

It is said to be certain that the Duke of Grafton will shortly resign, and that the Earl of Egmont is believed to be fixed upon to succeed him.

It is strongly reported that the Rt. Hon: Mr Grenville will shortly be created a Peer of Great Britain, and also be gratified with a most honorable and lucrative Sinecure.

PHILADELPHIA, June 19.

Since our last sundry letters, containing some particulars of the late dreadful fire at Barbados, have come to hand, from which we have extracted as follows, viz.

Bridgetown, May 16, 1766.

"By the time this comes to hand, I make no doubt you have heard of the melancholy destruction of this town, therefore will first acquaint you that our house is safe, and all to the windward of the stepping stones. After having the pleasure of acquainting you with this, I will (as well as the present confusion will allow me) give you a narration of the particulars. The fire broke out at the house above the attorney general's, in High street, about eleven o'clock at night of the 14th of May, and in two hours all Broad-street was in flames, and all is consumed between Jew street and right westward, down to the wharf, two houses excepted. It is impossible to give you any account, at present, of the dreadful Consequences of this mournful Event. The Fire spread itself with such Rapidity, that few had Time to save their Wearing Apparel: Had I not made a strong Push at the Cage, with the Crews of some Vessels we have in the Bay, and blown up our Store, next the Attorney General's, our End of the Town must inevitably have gone. We have received a large Sum for the poor distressed People who are now starving in the Fields for Want of Support; and I have been all this Day buried in distributing Provisions to them for their immediate Relief. We are forming an Association for the general Credit of the Island, in order to purchase up the Provisions for the People, that they may not be imposed upon. We mean to give a profitable and reasonable Price for every Thing that arrives, but at the same time, would put it out of the Power of unthinking, and unreasonable People, to exact on the poor unhappy Sufferers.

"By an Estimate just made, there appears to be 440 Houses burnt, the annual Rents of which amounted to 16 422 l.

There are many other Letters relating to the above Fire, but as the Contents of them are pretty much the same with those inserted, it is thought needless to repeat them.—One Letter says, the Ground the Buildings stood on that were burnt, by a Survey that had been taken of it, is 23 Acres, 3 Rods, and 16 Perches. In other Letters it is said, that above 1000 Buildings, of one Sort or other, were destroyed. The Assembly had passed a Law, regulating the Price of Provisions for two Months."

Captain Marshall, from Antigua, informs us, that it was said Two Thirds of Fort Royal, in Martinico, was burnt by the late Fire there; and that a great many People had lost their Lives in it.

NEW-YORK, June 16.

On Sunday last arrived a Transport from Pensacola, with Troops.—They bring Advice, that the Spanish Governor (accompanied with a Priest) was arrived at New Orleans, in order to take Possession of that Place. The Spanish Soldiers were not arrived, but soon expected, till when, the French Garrison were to remain and do Duty.—It was proposed to several of them to inlist in the Spanish Service, but they generally refused with Disdain. Vessels were provided for such Inhabitants as chose to embark for France, which when they were preparing to do, the Priest urged their complying with the Spanish Custom, of confessing before their Departure. The French insisted on their Right of Choice either to confess or not, according to the Custom of France, on which an Uproar and great Confusion ensued.—But as they were not suffered to depart without Confession, at length the greater Part complied rather than be detained; but were highly exasperated at the Compulsion, declaring they had rather live under the Turkish than the Spanish Government.

June 23. Yesterday Capt. Tudor arrived here from St. Kitts, where had been made equal Rejoicings on the Repeal of the Stamp Act as to any yet shewn; so likewise in most of the Islands. General THOMAS had departed for England, after the most affectionate Expressions had passed reciprocally the different Branches of the Legislature, in their Acknowledgment of his upright Administration, and in his Return of Thanks.

Provisions is so scarce at So. Carolina, that an Ordinance has passed the Legislature to prohibit the exportation of Rice; and for supplying the inhabitants of that province, who are in want thereof, at the price and for the time therein limited.

The Lord Hyde Packet, Capt. Goddard, will sail on Wednesday, Weather permitting.

Thursday last his Majesty's 46th Regiment of Foot arrived from Albany, and are quartered in our Barracks.

NEW-HAVEN, June 21.

We hear that 70 People in Wallingford, lately signed a Paper, wherein the County Court, now sitting in this Town were enjoined to stop the Administration of Justice, because they were not ready to pay their Creditors. A particular Account of this extraordinary Affair is not yet come to hand: Several suspect it originated in the Breasts of some selfish Sons of Slavery, to answer private Purposes.

NEWPORT June 16.

Copy of a Letter from Col. Isaac Barre, to Governor Ward, dated London, March 8, 1766.

SIR,

"*I acknowledge the Honor of receiving from Mr. Sherwood, your Letter dated Newport, November* 19th, *with the Resolution of the General Assembly of the Colony of Rhode Island inclosed.*

"*It is exceeding flattering to me, to find that my Conduct has been agreable to that respectable Body and I must beg of you, Sir, to assure them that I am highly sensible of the Honor they have done me by this public Mark of their Approbation.*
